Physical Examination

1. Frosh students, including all SHS graduates from DLSU Manila, need to go through the Entrance Physical Examination (EPE) as a requirement for official enrollment.
2. The following are required:
 - a) head-to-foot examination
 - b) dental examination
 - c) blood typing
 - d) chest x-ray
 - e) urine drug testing (3 panel) including Methamphetamine HCl (Shabu), Tetrahydrocannabinol(Marijuana), and Methylenedioxymethamphetamine (Ecstasy)

Medical, dental, blood typing, chest x-ray and urine drug examination results within the last 12 months, if available, may serve as the EPE. A photocopy of results with affixed 2" x 2" picture attached to the Frosh Medical Examination Form (Frosh MEF) may be submitted to the medical personnel stationed on the freshmen confirmation at the Enrollment Services Hub, 2nd floor Henry Sy Sr. hall. The DLSU clinic google form with the [Link](#) must be accomplished (answer all required data and upload the Frosh MEF and DEF) prior to the submission of the hard copy Frosh MEF and DEF. In the absence of this, refer to item 3.

3. EPE may be done in any accredited clinics of De La Salle University or reputable clinic / hospital at the expense of the student.
4. The following procedure in connection with the EPE must be observed:

Steps	Remarks
[A] Print the Frosh Medical Examination form (Frosh MEF) and Dental Examination form (DEF).	Download the forms below Link for Frosh MEF . Link for DEF .
[B] Fill out the Frosh Medical Examination form (Frosh MEF) and Dental Examination form (DEF).	Attach a 2x2 color photo on the Frosh MEF
[C] Present the Frosh MEF and DEF to any accredited clinics of De La Salle University or reputable clinic / hospital.	The examination fee varies from clinic to clinic. Physical and dental examination findings are documented on the Frosh MEF and DEF respectively. Except for additional chest x-ray procedures (if needed when the result suggests for apico-lordotic view or other additional X-ray view), further procedures like oral prophylaxis, are not
